The above film could contain some additives which have specification limit restrictions. In addition to RoHS provided by our suppliers, we are confident that the total additives level in this film is below the limit.

The concentrations of the following additives (lead, cadmium, mercury & hexavalent chromium) and flame retardants [polybrominated biphenyls (PBBs) & polybrominated diphenyl ethers (PBDEs)] in this product do not exceed 0.1% by weight for lead, mercury, hexavalent chromium, PBBs, & PBDEs and 0.01% by weight for cadmium. Trace levels of these substances

may be present resulting from the specific characteristics of the raw materials and/or of the manufacturing process.

Note: All above confirmations are based on the statements from our resin suppliers.
